CHATTERPAL REVIEW – INTRODUCTION

Customer service undoubtedly plays an essential part in any kind of business. Many companies have invested huge budgets in hiring staff, virtual agents, or sophisticated platforms in order to please clients as well as support them promptly.

Good customer service is more likely to lead the visitors to purchase decisions, which helps business owners boost their sales.

What if you got a CHAT SUPPORT that is available 24/7, to grab your visitor's attention, take responsibility for interacting with your register, answering their questions instead of dealing with hundreds of customer emails or phone calls on your own every day?

I will not let you wait for long, check out immediately the tool called ChatterPal which is the newest and most advanced chat automation with AI system on the market.

WHAT IS CALLED CHATTERPAL?

ChatterPal is SMART Chat Automation that combines “artificial intelligence” and “3D animation” to double conversions, sales, and leads.

It provides you with powerful tools such as talking 3D avatars, text-to-speech, one-click translation, and many more.

These tools allow you to engage and captivate attention effectively and automate leads and sales without opt-in forms or landing pages.

Moreover, you can buy it to serve your business, or you can choose to create unlimited ChatterPal for selling to your customer's thanks to Commercial License

WHAT DO YOU BENEFIT FROM THE PRODUCT?

Some groundbreaking features of the product that have never appeared in any other applications before:

1-Click Logo Mapping

The 3D avatars are instantly marked with your own logos and images. The logo automatically adapts to the movements of the avatar and looks fluid making the avatars look life-like!

NEW Next-Generation Text-To-Speech (TTS)

There are over 100 life-like voices in 25 languages and different regional accents. The premium new TTS voices are the same ones that power Amazon Alexa and Google Home

Wide Range Of Interactive 3D Avatars

There are 43 life-life male, female, and even animal 3D avatars. Avatars come in all age groups, backgrounds, and ethnicities for meeting all the needs!

Built-In Language Translation (Go Global)

Convert chat into ANY language with the CLICK of a button!

Revolutionary Lips-Sync Technology

As mentioned, you got a wide variety of voices and 3D avatars to choose from. The next step is freely syncing any voice in any language to one 3D avatar. Now you have got a "Robot" to boost engagement and results.

SMART Artificial Intelligence (A.I) Chat Automation

No need to hire staff or support agents, you still have the smart AI-backed chat engine to interact with website visitors and take them on a journey based on their responses.

10 Done-For-You Chat Templates With Easy Customization

Activate and use ready-prepared chat templates in seconds to boost sales, leads, and conversions on any website. You can also customize these templates even if you do not have any experience

A Great Collection Of Elements And Emotions To Use In Your Chat Template

Use these fun and attention-grabbing emojis to catch more eyes.

Email / Data Auto-Capture Technology

Automatically collects visitor emails, names, and any info they enter into chat and stores it neatly into a CSV. When you need a customer list, simply download the data and add it to your favorite autoresponder or CRM platform!

Intelligent Analytics Engine

Get real-time feedback and in-depth analytics on chat conversions, geo-locations, engagement, and more to find the most effective campaigns in minutes!

Revolutionary Live-Link Technology With Unlimited Site License

Add ChatterPal to any 3rd party website (even the ones you don't own). It is perfect to boost conversions on affiliate landing pages, bridge pages, and more to boost sales, traffic, and results!

This feature means you can sell chat services to e-commerce, website, and local business owner to gain more revenues

WHO SHOULD PURCHASE?

ChatterPal can be used for multi-purposes. Take a look at what ChatterPal can do for your business.

♦ If you are operating an e-commerce store or a website, use it to offer discounts and coupons, and build a subscriber list from visitors,...

♦ If you are running a local business or health care professional, use it to promote timely specials, offer bonuses, and book appointments via automated chat,...

♦ If you are the owner of a small brick-and-mortar business like a pizza store, or online groceries, use it to take custom orders via automated chat,...

♦ If you work as an affiliate or social media marketer, use it to interact with visitors and get them to click on your affiliate links, and showcase cool content,...

♦ If you are an offline consultant, use it as a premium service to your business clients for a recurring monthly fee,...

♦ If you are a product creator, use it to offer them an incentive to get them on your list, which is helpful to your later email marketing,...

Or even your job is not what I mentioned above, ChatterPal still offers you the best customer service

CHATTERPAL REVIEW – PROS AND CONS

Some PROS:

UPSELL #3 – CHATTERPAL PREMIUM VOICE PACK

ChatterPal premium included 49 ULTRA premium text-to-speech voices that are NOT available anywhere else. There are the most life-like voices available on the web right now.

These voices are generally pay-per-use and would cost the customers thousands of dollars to license. But today, they can get access to these ULTRA premium life-like voice packs with a low ONE TIME payment!

No recurring cost, unlimited usage.

UPSELL #4 – CHATTERPAL INTERNATIONAL

This upgrade activates a very powerful and unique feature in the app that AUTO DETECTS where the website visitor is coming from and translates the chat to that language without any human intervention needed!

This is pure artificial intelligence at play. You will be able to maximize your conversions and sales as the chat sell to people in their NATIVE language.

CONCLUSION

My ChatterPal Review ends here and thanks to you very much for reading it. I hope it gives you a thorough understanding of today's amazing product ChatterPal.

Again, this investment is profitable, worth your money, and safe with a 30-Day money-back Policy – No questions asked.

Consider and make a smart decision!
